Get simple

The SBM700 with Advanced IR provides 20 points of interaction, with gestures like zoom and rotate, and lets teachers write, erase, navigate and gesture intuitively – saving on training and support costs.

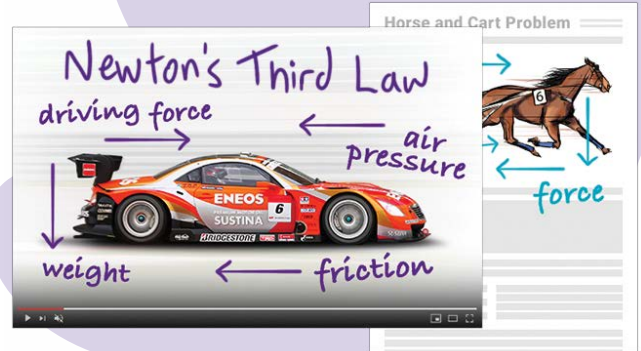

Intuitive touch & interaction

Simultaneous Tool Differentiation lets two users write, erase, move or gesture at the same time without toolbars or menu selection.
Object Awareness detects touch, pens and palms automatically.

The Active Pen Tray provides quick access to ink color sections, highlighter, fine erase, on-screen keyboard and more to make it easy for teachers to run lessons - no toolbars or software menus required.

Ink anywhere

SMART Ink desktop software lets you write into and over web browsers and applications, including PDFs and Microsoft Office® files, then save notes in almost any file type.

Get engaging

SMART displays come with an essential set of teaching tools for student engagement, all included for free, no subscription required.

Interactive lessons made easy

Includes award-winning SMART Notebook which lets teachers create, edit and deliver interactive lessons that are optimized for SMART Board interactive whiteboards.

Free content library for teachers

Access the SMART Exchange, a library of thousands of free games, activities and lesson plans created by teachers.

Get connected

The SMART Board M700 series leverages your investments in classroom projectors, connecting with any computer to add interactivity to the classroom.

Flexible computing

Enjoy the full SMART Board experience, including 20 points of touch and digital ink with any connected Windows or Mac computer across web browsers, files and applications.

Better video conferencing

The M700 series helps focus student attention while screen sharing in video conferencing applications like Zoom, Google Meet, and Microsoft teams by giving teachers the tools and workflows they're used to, like pens, inking, touch and gestures instead of being limited to a computer mouse.

Backed by SMART quality

The SMART Board M700 series meets world-leading standards for quality, safety, environmental and regulatory compliance, using third-party verification, and is backed by technical support services and warranty coverage.
